

# Lutron Electronics Co., Inc. Athena Wireless Node Five-Year Limited Warranty

For a period of five years from the date of shipment by Lutron, Lutron warrants each new Athena wireless node to be free from manufacturing defects. Lutron will, at its option, repair or provide a comparable replacement for any defective Athena wireless node that, in the opinion of Lutron, has been installed and operated pursuant to Lutron product specifications, including installation in accordance with all instructions, specification submittals and application notes and performing all prescribed engineering and manufacturing tests, and including operating below the maximum-rated operating temperature  $T_{max}=55\text{ }^{\circ}\text{C}$  for A-WN-D01 so long as Lutron is promptly notified of the defect within the five-year warranty period and, if requested by Lutron, the Athena wireless node is returned to Lutron.

Warranty is void if:

1. The fixture manufacturer does not follow the installation instructions, the specification submittals, and all applicable application notes.
2. The product is modified, disassembled or tampered with in any way.

This warranty is in lieu of all other express warranties and all implied warranties, including implied warranties of merchantability and of fitness for a particular purpose. This warranty does not cover: the cost of installation, removal or reinstallation; damage resulting from misuse, abuse, or improper or incorrect repair; damage from improper wiring or installation; or incidental or consequential damages. Lutron liability on any claim for damages arising out of or relating to the manufacture, sale, installation, delivery, or use of the Athena wireless node is limited to the purchase price of the Athena wireless node.

No Lutron agent, employee or representative has any authority to bind Lutron to any affirmation, representation or warranty concerning the Athena wireless node. Unless an affirmation, representation or warranty made by an agent, employee or representative is specifically included herein, or in standard printed materials provided by Lutron, it does not form a part of the basis of any bargain between Lutron and customer and will not in any way be enforceable by customer.

In no event will Lutron or any other seller be liable or responsible for any (i) consequential or special damages, (ii) repair work undertaken without Lutron prior consent, (iii) ancillary equipment not furnished by Lutron which is attached to or used in connection with the Athena wireless node, all such equipment being expressly excluded from this warranty, or (iv) damage to the Athena wireless node resulting from the use of ancillary equipment not furnished by Lutron for use with the Athena wireless node.

This warranty provides specific legal rights. Other rights, which vary from state to state, may exist. Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply.

Contact Lutron Customer Assistance at the numbers provided below or your local Lutron sales representative with questions concerning the installation or operation of a covered Athena wireless node or this Warranty, or to make a warranty claim. Please provide the exact model number when calling.
