E26 BASE LAMP EXTENDER

FEATURES

- For E26 lamps and fixtures
- Extends lamp height by 1-5/16"
- Improves lamp position and light output in certain fixtures
- Suitable for 120-250V

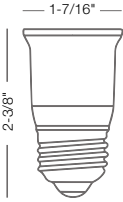

FOCUS FEATURE

The E26 lamp extender is suitable for use with the HID LED HO lamp which is designed for use in bollard, post top and other outdoor applications. The lamp extender adds 1-5/16" to the lamp's overall height. The maximum allowable power is 250W.
