CATALOG

Your partner for professional lighting solutions

GREEN CREATIVE, founded in 2010, is a solid-state lighting development and manufacturing company based in Sanford, FL with an office in Shanghai. The company offers a comprehensive line of high-performance LED Lamp, Downlight and Track lighting solutions, widely adopted by some of the largest companies in the world.
Bringing you the latest in LED technology

Anchored by strong integrated R&D capabilities and patented technology, Our innovation, performance and reliability have been recognized year after year by the Illuminating Engineering Society Progress Report, the LEDs Magazine Sapphire Awards, Edison Report, NAILD and more.

A complete line with national & international distribution

GREEN CREATIVE's full product line of ENERGY STAR®, DLC®, TITLE 20 & JA8 certified indoor retrofit and new construction lighting solutions serves the Retail, Hospitality, Food & Beverage, Office, Education & Industrial sectors through multiple distribution centers and sales networks across the USA.

PXCYL Direct Indirect Cylinder

- Central monopoint suspension for clean shadowless light
- Innovative dual directional optical design
- Options of suspension and pendant mountings in 4" and 6" sizes
EXCYL Outdoor Cylinders

- Options of wall mount and surface mount cylinders for outdoor applications
- Fully embedded settings integrated in one product
- Build for durability and reliability in challenging outdoor environments

SELECTFIT G3 Downlights

- Innovative lock cover for CCT and power settings
- Field selectable CCTs and power levels, DUALDIM driver
- Compatible with NUROAir control system

SlimDisk Surface Mount

- Slim profile of only 7/8" below the ceiling
- Deliver up to 1,000 lumens with superior color accuracy of CRI 90
- Easy installation with innovative twist lock diffuser

## Central Monopoint Suspension for Clean Shadowless Light

Available for either stem pendant or cable suspension with central monopoint mounting, the PXCYL direct / indirect cylinder brings a clean shadowless upward lighting effect on the ceiling, providing a sense of depth and security while limiting the cave effect.

INDIRECT

DIRECT

Elevate Your Atmosphere Upward and Downward

Discover the pinnacle of suspended cylinder lighting with a uniquely singular point fixture that delivers pristine direct and indirect illumination. The design enhances spatial perception and eliminates any trace of a cave-like feel.

Innovative Dual Directional Optical Design

The unique circular upward optic design allows for both indirect and direct light sources to be packed within a compact cylinder profile. With only 1.5" depth added, the product elevates your atmosphere with a brighter and more spacious ceiling while still keeping a pleasant unobstructive floating cylinder in the space.

Elevate Your Atmosphere Upward and Downward
Direct / Indirect Cylinder

UPLIGHT
Light Output 30% (500lm - 1,600lm)
Beam Angle 60° / 75°

DOWNLIGHT
Light Output 70% (1,300lm - 4,000lm)
Beam Angle 15° / 25° / 40° / 60° / 75°

### A Complementary Solution in PXCYL Cylinder Series Family

Featuring the same design and finish options as the PXCYL downlight cylinders, the direct/indirect model also includes SelectDrive technology, allowing for three adjustable lumen output levels. With a high CRI of 90 and precise LED binning, it provides excellent color accuracy and uniform illumination in both upward and downward directions.

Direct-Indirect Illumination Simplified

The unique EXCYL design combines both indirect and direct light sources within a compact cylinder profile, delivering clean beams for both types of illumination. The product can be configured for direct-indirect, direct-only, or indirect-only lighting to perfectly meet the specific needs of the space.

Outdoor Illumination Simplified

A versatile wall-mounted direct-indirect cylinder that simplifies specification by integrating all settings and the photocell into a single SKU, while providing clean and precise up-and-down beams.

NUROAir by ILLUMUS

NUROAir Bluetooth Ceiling Mount Dual Mode Sensor is the optimal groupable controls lighting solution. With main features such as PIR Motion and Ultrasonic Sensing, Occupancy/Vacancy, and Bi-Level Dimming - this flexibility makes the NUROAir Bluetooth Ceiling Mount Dual Mode Sensor ideal for tailoring lighting to specific space needs, optimizing both ambiance and efficiency. The NUROAir App, available for download on iOS and Google Play Store, offers a user-friendly interface for automatic or manual customization of your space. Through the app, users can configure sensor settings such as the Light Output, CCT, Hold Time, Standby Time/Level, High/Low End Trim, Background Light Level, Set Schedules, and Control Lighting Groups or Zones, all from a mobile or tablet device. Manual control is also available with a range of compatible wireless & wired wall switch options.

NEW CONSTRUCTION FRAME

The SPECFIT new construction frames, made of the highest quality galvanized steel, are designed to be installed in suspended T-grid or wood joist ceilings. The low profile bar hangers with non-pass through construction and leveling flanges contain an integral tee bar clip and preinstalled nail, quick and safe installation in standard 2x2' and 2x4' suspended ceilings. The attached junction box and prewired driver, with quick connect MC cable allows for easy fixture wiring. Optional field installable butterfly brackets are also available for C-Chanel or conduit suspension. EM unit can be factory installed on demand with a specifically designed bracket.

TRUE CHROMA

SPECFIT, powered by TRUE CHORMA technology, has the highest color accuracy standard in the market. TRUE CHROMA starts with a maximum 3 step SDCM LED light source. Then, based on the traditional CRI and new IES TM-30-15 standards, TRUE CHROMA delivers CRI ≥ 95, R9 ≥ 50 and Rf ≥ 93. Rest assured that new spaces lit with SPECFIT fixtures powered by TRUE CHROMA will look their best.

NYX NEW CONSTRUCTION DOWNLIGHT

Performance With Durability In Mind

NYX has been thought with performance in mind without compromising on design and allows for installing virtually anywhere. The products are engineered in a super shallow design of less than 4", IC and Air-Tight rated, suitable for wet locations, Energy Star certified and meeting Title 24 JA8 requirements. With calculated L70 of 100,000 hours, tight LED binning within 3 SDCM and high CRI 90, NYX downlights ensure uniform and vivid lighting for your space.

TITLE 24 JA8

Simplicity From Installation To Upgrade

NYX is designed with a complete toolless field installation doable in seconds, for both new construction or direct mount. All parts are upgradable or serviceable from below the ceiling. You can relax when installing a NYX downlight for both ease of maintenance or future upgrade if the space requires.

1-5/8"
3-5/8"
2-1/2"

Ready For Any Dimming Protocol

All NYX products are suitable for 120-277V input and feature our DualDim technology allowing the luminaire to be dimmed with either TRIAC/ELV or 0-10V controls. Taking the guesswork out of auditing an existing space and providing optimal flexibility while minimizing un-expected installation issues in the field. NYX is the right solution for all your projects in residential, commercial, mixed-use, new construction or remodel applications.

## Integrated CCTs and Lumens Options

Select Kelvin

Utilizing our SelectKelvin technology, select the CCT before, during, or after installation with just the flip of a switch. Choose from 2700/3000/3500/4000 /5000K CCT to customize any application and set the right atmosphere for your space.

Select Drive

Get the right amount of light with NYX powered by SelectDrive technology. Choose either Extra low, Low, Medium or High light output. With just the flip of a switch on the driver, NYX ensures that every space has just the right amount of light from 700lm to 4000lm.
**Selectable CCT**
Selectable Power Output

A Solution For Different Height And Spacing

With NYX you can get the right amount of light for any project, ranging from smooth 700lm to powerful 6000lm, no matter your ceiling height and your plenum space thanks to its super shallow design, NYX is the right solution for your space. With different beam angle option in wide and medium distributions, NYX has a solution for each room size and height to offer an even illumination with a neat ceiling.

Various Sizes and Shapes With Abundant Reflector Selections

NYX downlights give architect, lighting designer or contractor an unmatched versatility with a galaxy of reflectors options and finishes. Including full clear, white and black dead front for specific damp or wet location usage, black baffle or white baffle style with white flange for smoother and lower glare light output and the classical clear and white flange for an ageless design. Wall wash kicker options are also available in clear and white, to complement the NYX possibilities, for wall grazing.

NUROAir by ILLUMUS

NUROAir Bluetooth Ceiling Mount Dual Mode Sensor is the optimal groupable controls lighting solution. With main features such as PIR Motion and Ultrasonic Sensing, Occupancy/Vacancy, and Bi-Level Dimming - this flexibility makes the NUROAir Bluetooth Ceiling Mount Dual Mode Sensor ideal for tailoring lighting to specific space needs, optimizing both ambiance and efficiency. The NUROAir App, available for download on iOS and Google Play Store, offers a user-friendly interface for automatic or manual customization of your space. Through the app, users can configure sensor settings such as the Light Output, CCT, Hold Time, Standby Time/Level, High/Low End Trim, Background Light Level, Set Schedules, and Control Lighting Groups or Zones, all from a mobile or tablet device. Manual control is also available with a range of compatible wireless & wired wall switch options.

NOVA Wall Wash Track Head

A versatile wall wash track that simplifies specifications by incorporating all settings into a single SKU while ensuring uniform, wide, and precise illumination.

Top-To-Bottom Wide and Uniform Lighting

Designed with cutting-edge optics and a faceted reflector, NOVA provides wide and uniform lighting across expansive surfaces from top to bottom, maximizing the illuminated area with reduced number of fixture installed.
Effortless Field Selectability

Designed with integral power and CCT switches, NOVA allows for field selection of three lumen levels ranging from 3,000lm to 5,000lm with up to 100lm/W efficacy, and three color temperatures from 3000K, 3500K, and 4000K with high CRI 90 for crisp light and superior color accuracy. Specification for right light output and color is at your fingertips directly in the field.

NOVA

Fewer Head Count, Refine Space

NOVA provides ample and uniform lighting using fewer fixtures due to its broad light distribution and impressive footcandles. With a spacing range of up to 6 feet between fixtures and 3 feet from the wall, your entire area remains brightly illuminated, ensuring a minimum of 60 footcandles on the wall and an even distribution of light from 1 to 9 feet from the ceiling, even between fixtures. Achieve a refined ambiance with a 'silent ceiling' effect, immersing your space with vibrant illumination.

Precise and Convenient Light Adjustment

NOVA is engineered with 360° rotating head and 90° pivot design, with assisting light articulation indicators on the arm of the track head, free and precise aiming of the light towards where needed become a breeze.
360°

90°
Complementary Design

The sleek and compact design enables NOVA seamlessly blending into any environment, either installed alone, or work in combination with our ORBIT track and PXCYL cylinder track which designed in the same sleek and contemporary style, for achieving more diversified aesthetics and illumination effect.

2200K CCT   2400K CCT
MEDIA, COLOR FILTERS, LENSES

Define, refine and dramatize your lighting design with media and lenses. Use the Honeycomb, Linear Spread and Solite lenses to reduce glare, spread and soften the edges of any lighting design. Use the Square lenses for highlighting specific painting or architectural details. Use the CCT shifting lenses for unparalleled warmer colors (2400K and 2200K), creating welcoming environments for your most ambitious projects.

ATOM TRACK LIGHT

GREEN CREATIVE

ATOM SERIES

PATENTED
TITLE 24 JA8

HIGH CRI LED TECHNOLOGY
SCAN ME or **CLICK HERE**

The Atom Track offers industry-leading performance in a versatile, compact fixture. With your choice of color temperature, lumen output, track adapter, beam angle, and fixture color, you can tailor this track light to any application. The Atom Track's modular design makes it fully customizable, allowing you to easily make in-field upgrades to the light engine or lens. Snap-on accessories offer even more options, giving you flexibility and variety to your lighting project.

TRACK MOUNT

H, J and L track adapters accomodate most track systems

PATENTED

90CRI, 2700K, 3000K, 3500K, 4000K CCT

650 & 1,050 lumens options

CANOPY MOUNT

25° Narrow & 35° Flood Beam Angles

Matte White & Matte Black finishes match existing track systems

TRUE BEAM

Easy to install snap-on accessories, including wall wash, snoot, honeycomb louver, color shift and square distribution lenses.

- Compact form factor with industry-leading performance
- Meets CA Title 24 requirements
- H, J, L, and Canopy Mount adapters available
- Easy to install, snap-on accessories available

- Extruded aluminum, " I-Beam" design construction for strength and rigidity
- Available standard in 24", 48" and 96" lengths
- Field-cuttable for custom lengths
- Black, white and silver finishes available
- Rated for 20A at 120V, 60Hz. Maximum power rating is 2.4 kW
- Surface, cable or pendant installation options
- Mechanical polarity with a visual indicator simplifies installation
- All track system components are cULus listed for dry location
- Use with GREEN CREATIVE ATOM and ORBIT track fixtures
- Compatible with all J-Type track heads

ORBIT SERIES

ATØM SERIES
GREEN CREATIVE Single Circuit J-Type Track System is compatible with all GREEN CREATIVE Track Fixtures with J-type adapter, including the ATOM and ORBIT track lines.
