AUDITORIUM

Lighting in auditoriums should highlight a performance or lecture and make audiences feel comfortable and engaged. Choosing the right beam angles and lenses minimizes glare on screens and boards, and will ensure that the light illuminates, but does not irritate, those presenting.

PAR56 LAMP

The REFINE PAR56 lamp is designed with a proprietary GREEN CREATIVE driver which provides flicker free dimming performance with most forward and reverse phase controls. The REFINE optic maximizes the center beam candle power from our 90+ CRI light engine while eliminating glare. The heatsink design allows the lamp to be used in enclosed applications and still maintain a 50,000 hour lifetime. The REFINE PAR56 lamp will replace any GX16d based 300W halogen lamp.

REFINE VHO PAR38

- Powerful light output of 3,000 lumens
- Flicker Free lighting effect reduces visual fatigue
- Dims to black with most forward and reverse phase controls

HID HIGH BAY LAMPS

- Replacements for up to a 400W HID light lamp
- Up-lighting eliminates shadows and creates a natural look
- Eliminates the ballast and operates off universal voltage (120-277V)

SPECFIT

- 4", 6", 8" & 9.5" form factors
- Adjustable lumen output
- TRUE CHROMA version available

PXCYL

- 2", 4", 6", 8" sizes
- Comprehensive mounting options
- Industry leading lumen selectable output up to 5,000lm

CAFETERIA

Commons areas typically serve multiple functions, so a variety of lighting options is critical. Authentic color rendering in dining areas makes meals or snacks visually appealing and promotes lunchtime’s social atmosphere. Lighting around kitchen areas should be brighter, helping to keep food preparation areas clean.

T8 LAMPS

GREEN CREATIVE has a T8 LED linear retrofit lamp for any educational applications. The series include UL Type A LED linear retrofit lamp (DIRect to an existing ballast), Type B LED linear retrofit lamp (BYPass the ballast to line voltage 120-277V), and Type C LED linear retrofit lamp (EXTeRnal driver).

T5 LAMPS

- Meets NSF requirements, plastic construction will not shatter
- Options for plug and play ballast install, line voltage wiring, or external driver, are available

HID HIGH BAY LAMPS

- Replacements for up to a 400W HID light lamp
- Up-lighting eliminates shadows and creates a natural look
- Eliminates the ballast and operates off universal voltage (120-277V)

SPECFIT

- 4", 6", 8" & 9.5" form factors
- Adjustable lumen output
- TRUE CHROMA version available

SELECTFIT G2

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 5 CCTs
- DualDim for both 120V TRIAC/ELV and 0-10V dimming

INNOFIT PLUS

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 3 CCTs
- Wet, IC, and Air-tight rated

CLASSROOMS

Classrooms are second homes for many students and teachers. As lighting has a significant effect on performance and mood, designers should choose fixtures that increase motivation and reduce fatigue, mimicking or complimenting natural light. Choose soft but bright lights with high color rendering, and avoid fixtures which may buzz or flicker.

SelectDrive TYPE C LAMPS

GREEN CREATIVE's SelectDrive Type C allow a wide variety of ceiling heights to be addressed using one lamp and driver. The simple to use SelectDrive switch allows for quick adjustments and the driver is designed to provide flicker free light. Add 0-10V control to maximize energy savings and meet code requirements including daylight harvesting and occupancy/vacancy controls.

T5 LAMPS

- Meets NSF requirements, plastic construction will not shatter
- Options for plug and play ballast install, line voltage wiring, or external driver, are available

SELECTFIT G2

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 5 CCTs
- DualDim for both 120V TRIAC/ELV and 0-10V dimming

INNOFIT PLUS

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 3 CCTs
- Wet, IC, and Air-tight rated

CORRIDORS & STAIRWELLS

Hallways and Stairwells are transition areas-important spaces where students and faculty can decompress, socialize, and re-calibrate. Unfortunately, they are often far from windows and lack natural light. Proper lighting in these areas helps to shape a school's atmosphere and leaves students feeling energized for their next class.

T5 LAMPS

GREEN CREATIVE's T5 lamps are great for educational applications. T5 lamps are available in high efficiency and high output designs in a wide variety of color temperatures. HE and HO lamps are available for use with compatible existing ballasts, off line voltage (120-277V) power, or using a remote driver. GREEN CREATIVE T5 lamps are manufactured using rigid polycarbonate to eliminate breakage.

T8 LAMPS

- Options for plug and play ballast install, line voltage wiring, or external driver, are available
- Options for replacing most linear fluorescent lamps
- Wide light emitting area

PL LAMPS

- Replacements for fluorescent lamps from 7W - 42W
- Bases compatible with most fluorescent pin sockets
- Options for plug and play ballast install or wiring to line voltage

SELECTFIT G2

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 5 CCTs
- DualDim for both 120V TRIAC/ELV and 0-10V dimming

INNOFIT PLUS

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 3 CCTs
- Wet, IC, and Air-tight rated

GYMNASIUMS

Gyms are not only used for sports- they can double as event centers, pep rally venues, and dance halls. Getting the lighting right is not easy. Solutions in these spaces need to distribute light evenly across the floor and should be robust enough to withstand the impact of fly balls. Replacing these fixtures is costly and time-consuming, so designers should choose long-lasting, energy-efficient solutions.

HID HIGH BAY LAMPS

The HID highbay lamps from GREEN CREATIVE offer replacements from 175W to 400W with light output up to 20,000 lumens. These lamps provide great energy saving solutions with exceptional efficacy and long lifetime of over 50,000 hours. Select models are also provided with optional integral multi-function sensor to maximize energy savings and promote compliance to building codes.

- T5 LAMPS**
- Meets NSF requirements, plastic construction will not shatter
 - Options for plug and play ballast install, line voltage wiring, or external driver, are available

- SPECFIT**
- 4", 6", 8" & 9.5" form factors
 - Adjustable lumen output
 - TRUE CHROMA version available

- SELECTFIT G2**
- 4", 6", 8" & 9.5" form factors
 - Field adjustable 3 level lumen outputs and 5 CCTs
 - DualDim for both 120V TRIAC/ELV and 0-10V dimming

- 3N1**
- 5", 7", 9" and 12" surface mount
 - Adjustable CCT
 - Direct ceiling, recessed housing & J-Box mounting options

LIBRARIES

The quietest place in school can be a haven in times of stress. Make sure lighting in study areas is adequate but not overbearing, and that books and other resources are highlighted. As libraries tend to be multi-purpose areas, the lighting design should be adaptive to meet the needs of the occupants.

REFINE PAR LAMPS

REFINE Pars featuring TRUE CHROMA technology deliver the color accuracy critical to replace Ceramic Metal Halide lamps. Available in 277V these long life lamps deliver high intensity light perfect for educational applications, without compromising efficiency.

T8 LAMPS

- Options for plug and play ballast install, line voltage wiring, or external driver, are available
- Options for replacing most linear fluorescent lamps
- Wide light emitting area

SPECFIT

- 4", 6", 8" & 9.5" form factors
- Adjustable lumen output
- TRUE CHROMA version available

MINIFIT

- 1" & 2" 360° rotation gimbals
- 2" module with extensive trim selections
- Perfect for shallow plenum construction

PXCYL

- 2", 4", 6", 8" sizes
- Comprehensive mounting options
- Industry leading lumen selectable output up to 5,000lm

ORBIT TRACK

- Specification grade & performance design
- Spot, narrow & flood interchangeable optics
- Industry leading lumen selectable output range

ATOM TRACK

- Classic, minimalistic, cylindrical form factor
- CRI 90, 2700K, 3000K, 4000K CCTs
- Up to 1050 lumens in 25° or 35° beam angles

LOCKER ROOMS

Shower and changing room facilities often have tricky layouts. Lighting design should eliminate shadows and cut down on glare from mirrors. Occupancy sensors can be a wise choice, as some facilities are only used during certain parts of the day.

3N1

Select Kelvin

The 3N1 family with SelectKelvin technology is the right surface mount fixture for retrofit or new construction projects. The 3N1 can retrofit existing fixtures or be used in new ceiling applications with its versatile three mounting options and the three field selectable color temperatures to provide optimal flexibility from one fixture family.

T8 LAMPS

- Options for plug and play ballast install, line voltage wiring, or external driver, are available
- Options for replacing most linear fluorescent lamps
- Wide light emitting area

T5 LAMPS

- Meets NSF requirements, plastic construction will not shatter
- Options for plug and play ballast install, line voltage wiring, or external driver, are available

CLICK WITH SENSOR

- Integrated PIR sensor
- Wet, IC & Air-tight rated
- Nonconductive polycarbonate trim

CLICK 6"

- Innovative CLICK design
- Fixture depth is just 1" below the ceiling
- Wet, IC & Air-tight rated

INNOFIT PLUS

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 3 CCTs
- Wet, IC, and Air-tight rated

OFFICE & ADMINISTRATION

Whether doing administrative work, holding meetings, or caring for sick students, faculty and staff need smart lighting solutions to do their jobs. A combination of task lighting and ambient lighting ensures that workspaces are functional and sensible. And since these areas are often overlooked when designing a school, a modern upgrade can make a big difference.

TRACK FAMILY SOLUTION

A track lighting family centered around meeting your educational lighting needs. With field-adjustable lumen outputs, multiple mounting options, a variety of beam angles, and an extensive suite of accessories and lenses, you can be sure that your application is getting the focus it deserves. GREEN CREATIVE also offers its own track system for your new construction or remodel applications.

T8 LAMPS

- Options for plug and play ballast install, line voltage wiring, or external driver, are available
- Options for replacing most linear fluorescent lamps
- Wide light emitting area

T5 LAMPS

- Meets NSF requirements, plastic construction will not shatter
- Options for plug and play ballast install, line voltage wiring, or external driver, are available

PL LAMPS

- Replacements for fluorescent lamps from 7W - 42W
- Bases compatible with most fluorescent pin sockets
- Options for plug and play ballast install or wiring to line voltage

SELECTFIT G2

- 4", 6", 8" & 9.5" form factors
- Field adjustable 3 level lumen outputs and 5 CCTs
- DualDim for both 120V TRIAC/ELV and 0-10V dimming

SPECFIT

- 4", 6", 8" & 9.5" form factors
- Adjustable lumen output
- TRUE CHROMA version available

MINIFIT

- 1" & 2" 360° rotation gimbals
- 2" module with extensive trim selections
- Perfect for shallow plenum construction

PXCYL

- 2", 4", 6", 8" sizes
- Comprehensive mounting options
- Industry leading lumen selectable output up to 5,000lm

ORBIT TRACK

- Specification grade & performance design
- Spot, narrow & flood interchangeable optics
- Industry leading lumen selectable output range

RESTROOMS

Whether you choose ambient light, accent light, or a mixture of both, washrooms in schools should be safe and hygienic. Ensure that the room is well-lit, especially in corners and along walls. High-quality occupancy sensors work well in restrooms, helping facilities save on energy bills.

CLICK WITH SENSOR

The integral passive infrared sensor of the CLICK surface mount fixture helps deliver a balance between high quality 90 CRI light and energy savings in variable occupancy spaces. Turning on instantly with room occupancy and off after ten minutes of room vacancy, the CLICK provides easy and reliable fixture control and performance.

A LAMPS

- Suitable to replace 60W, 75W, 100W incandescent lamps
- Provides comfortable, diffused light
- Dimmable with forward and reverse phase controls

BR LAMPS

- Suitable to replace up to 65W incandescent lamps
- Provides comfortable, diffused light
- Dimmable with forward and reverse phase controls

T8 LAMPS

- Options for plug and play ballast install, line voltage wiring, or external driver, are available
- Options for replacing most linear fluorescent lamps
- Wide light emitting area

CLICK WITH SENSOR

- Integrated PIR sensor
- Wet, IC & Air-tight rated
- Nonconductive polycarbonate trim

3N1

- 5", 7", 9" and 12" surface mount
- Adjustable CCT
- Direct ceiling, recessed housing & J-Box mounting options

EMERGENCY

Safety and security are essential components to any building's lighting design. In the event of a power failure, schools need reliable emergency lighting solutions. Emergency drivers and inverters are ideal solutions for greater illumination when outages occur.

EMERGENCY SOLUTIONS

GREEN CREATIVE

- 5W, 10W, 23W versions
- Specifically designed to work with a wide variety of GREEN CREATIVE's lamps and fixtures
- Meets or exceeds all NEC and life safety code emergency lighting requirements
- CA Title 20 compliant version available

<https://greengcreative.com/emergency-accessories/>

IOTA

- IIS 35W and 50W Emergency Micro-Inverters
- Sine wave output inverter designed to provide power to the designated emergency lighting fixture
- Meets or exceeds all NEC and life safety code emergency lighting requirements
- CA Title 20 compliant version available

<https://greengcreative.com/emergency-accessories/>

FULHAM

- Fulham's HotSpot 10.7W, 13.7W and 17W constant power emergency drivers
- Bring field-installable backup power to LED luminaires
- All standard models are now CA Title 20 compliant
- For use with Type C TLED systems
