

## LED TROFFER & PANEL 2X2', 2X4' & 1X4' DRYWALL FRAME INSTALLATION GUIDE – WARNING

**WARNING** – Read all product labels and instructions before installing fixture.

**WARNING** – Risk of fire or electric shock. The electrical rating of these products is 120-277VAC, the installer must determine whether they have 120-277V at the luminaire before installation.

**WARNING** – Risk of fire or electric shock. Luminaire wiring and electrical parts may be damaged when drilling for installation of LED Troffer and Panel. Check for enclosed wiring and components.

**WARNING** – Risk of fire or electric shock. LED Troffer installation requires knowledge of luminaires electrical systems. Installation should be performed only by a qualified electrician in accordance with the National Electrical Code and relevant local code.

**WARNING** – Risk of fire or electric shock. Install this Troffer only in ceilings that have the construction features and dimensions shown in the photographs and/or drawings.

**WARNING** – Only those open holes indicated in the photographs and/or drawings may be made or altered as a result of troffer installation. Do not leave any other open holes in an enclosure of wiring electrical components.

**WARNING** – Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.

**WARNING** – To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.

**WARNING** – The recessed luminaire is intended for mounting only in a covered ceiling where only the LED side of the luminaire will be exposed to damp or dry locations.

**WARNING** – INSTALLATION SHOULD ONLY BE PERFORMED AFTER POWER TO THE FIXTURE HAS BEEN DISCONNECTED.

- Disconnect power at the source before installation, inspection or removal.
- Do not use if product is damaged.
- Do not alter, relocate, or remove wiring, lampholders, power supply, or any other electrical component.
- Do not use abrasive materials, glass cleaners or other solvents on cover plate or lens. Use of these substances may damage fixture. To clean the faceplate, use a mild soap solution.
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- Suitable for damp or dry locations only.

## LED TROFFER & PANEL 2X2', 2X4' & 1X4' DRYWALL FRAME INSTALLATION

Drywall Frame	Ceiling Opening: in. (mm)	Inner Trim: in. (mm)	Outer Trim: in. (mm)
DWFRAME22 (2x2')	24.61"x24.61" (625x625mm)	23.07"x23.07" (586x586mm)	25.32"x25.32" (643x643mm)
DWFRAME24 (2x4')	24.63"x48.63" (625x1235mm)	23.07"x47.19" (586x1196mm)	25.32"x49.33" (643x1253mm)
DWFRAME14 (1x4')	16.68"x48.63" (322x1235mm)	11.22"x47.19" (285x1196mm)	13.46"x49.33" (342x1253mm)

\* Drywall Frame height is 1.50" (38mm)

1. Make sure the POWER IS TURNED OFF at the source to the location at which you are installing the product.
2. Create ceiling opening according to above table.
3. Assemble the four sides of the drywall frame together using the provided eight screws. (fig. 1)
4. Insert the frame into the ceiling opening. (fig. 2)
5. Secure the frame to the building structure using hanger wires (not provided) (fig. 3) or screw the frame directly to ceiling studs (fig. 4). Ensure the frame is installed securely in the ceiling and able to support the fixture's weight.
6. Follow wiring and installation instructions provided with the fixture.
7. Once wiring is complete, insert the fixture into the frame. Return power back to the source and installation is complete. (fig. 5 & 6)
