

SlimDisk

Greater Value | Slimmer Design

GREENCREATIVE

7/8"

Quality Light Packed in Low Profile Design

Designed with a slim profile of just 7/8” thickness, the SlimDisk illuminates any space in residential, multifamily, and hospitality settings. Offering up to 1,000 lumens of light with a wide 100° beam and a high CRI of 90, this product delivers an economical and energy-efficient solution for general lighting needs, whether for new construction or renovation projects.

Easy Installation with Twist Lock Diffuser

SlimDisk is designed for easy installation and mounting to standard 4” junction boxes or 5-6” recessed can housings. Its twist-lock diffuser design simplifies and speeds up both installation and light selection in the field.

Mounting slots with different spacings for quick installation in junction box.

Spring slots for CAN installation

5 Selectable Color Temperatures

SelectKelvin technology enables easy selection of five color temperatures from 2700K, 3000K, 3500K, 4000K and 5000K in the field, creating customized ambience and adapting to the mood of the space with just the flip of a switch.

Guaranteed with Industry Compliance

Affordability does not come at the expense of quality and design. SlimDisk is ETL listed for wet locations, air-tight, and IC rated. It is also Energy Star certified and compliant with California Title 24 JA8 standards. With an industry-leading lifespan of L70 50,000 hours, the product is backed by a standard 5-year warranty. Additionally, field-installable emergency backup options are available for applications requiring emergency lighting. Choose SlimDisk for greater value and lasting quality.
