GREEN CREATIVE PAR Lamps**

GREENCREATIVE

Versatile Track Fixtures Compatible With GREEN CREATIVE PAR Lamps

Designed as the perfect companion with GREEN CREATIVE PAR lamps, the SOL Gimbal Track Head series offers a forward-looking track lighting solution. This series seamlessly integrates a durable track housing with the option for upgrading to retrofit LED PAR lamps.

Versatile Sizes and Finishes

SOL Gimbal Track Head is designed to fit lamps in PAR20, PAR30 short neck and PAR38 form factors. Choose from white or black finishes to effortlessly match your decor style.

The E26 medium screw base design ensures simple installation and removal. It's designed to be future-proof, allowing for upgrades and maintenance, giving you peace of mind that your fixture will endure the test of time.

Maximum Horizontal and Vertical Swivel

Featuring its 2-plane gimbal design, the SOL Gimbal series allows for maximum horizontal and vertical swivel, enabling precise aiming and adding a touch of elegance to any environment.

Equipped with an E26 medium base and compatible with both H-Type and J-Type adapters, it seamlessly integrates with a variety of Track Rails.

Perfect Companion with GREEN CREATIVE PAR Lamps

SOL Gimbal Track Heads are designed as perfect companion with GREEN CREATIVE PAR lamps tailored for your specific lighting requirements. REFINE PAR lamps series deliver superior light performance with best color accuracy and efficiency. The AdjustaPAR lamps series offers optimal flexibility for adjusting color temperature and beam angle in the field. Value Select PAR lamps series brings best value solution for everyday contractor projects.
