

### What does the NSF mark mean?

The NSF mark assures that the product has been tested and certified by NSF International and has been manufactured in an NSF controlled facility.

### Benefits of NSF certified lighting products

- Can be safely installed in designated areas
- Withstand abuse and avoid contamination
- Prevent the harborage of vermin and the accumulation of dirt for food safety
- Designed to permit on-site maintenance, servicing, and cleaning
- Constructed of non-toxic material
- Deliver safety performance for food processing, distribution and preparation

### Applications that require NSF certified lighting

- Industry food processing areas
- Commercial kitchens of all sizes
- Food storage and servicing areas
- Medical and healthcare centers can also benefit from the additional protective features
